UPDATE: Canceling due to the number of people out of the office. I'll send around a recommendation to get us started on a discussion on feedback to ATSDR.

Hi all,

Let's try again! Let's get together to talk about how to share our thoughts on their list with ATSDR. We will likely also follow up with OCSPP and OLEM and coordinate our agency response to ATSDR. There are multiple opportunities for collaboration. Perhaps we can start some of our Lean II initiatives with this activity!

Below the status of the ongoing toxicological profiles by ATSDR is listed below. It is also available at <http://www.atsdr.cdc.gov/toxprofiles/index.asp>. A cross check of ATSDR's and IRIS' respective agendas is also below (from the Multi-Year Agenda, December 2015) . There are two overlaps: PFAs, initiated in 2009, has been delayed due to science, resource, and policy issues. ATSDR hopes to finish it this year. And, Nitrates/Nitrites, ATSDR initiated in 2013, just returned from public comment this past January.

Toxicological Profiles Status as of March 24, 2016
